★ **1992 Nighthawk 750 Brat/Cafe - \$2750 (Bend)** 

1992 Honda Nighthawk

engine displacement (CC): **750**

fuel: **gas**

odometer: **20000**

title status: **clean**

transmission: **manual**

Custom '92 Honda Nighthawk 750cc. 19,3xx on the speedo, but I removed it and added a couple hundred to the bike since. Custom machined air intake and relocated battery which cleans up the triangle nicely. Re-jetted carbs, and rebuilt with all stainless hardware. 4 into 4 exhaust, titanium heat wrap, and slash cut shorty mufflers painted with 2000° exhaust paint. Sounds mean an throaty with the opened intake and exhaust, which in addition to the re-jet, also boosted the performance. Denim "Prison Blues" seat, resting on a MIG welded seat hoop. Knee dents on the original nighthawk tank, and an old school WW2 Olive paint job. Clip on handlebars and ousy grips, bar end mirror on left side. Piggy-Back rear shocks. DPR8-IX iridium NGK spark plugs. Lots more. Needs front turn signals bulbs. Clean title. More pics here <https://www.facebook.com/marketplace/permalink/697080223808224>
